03.2015

Online-News for Plastics and Pharma Technologies

inForm.Intro

Dear Readers,

The first quarter of 2015, we conclude with mixed feelings. We are proud of our successful (former) trainees who now support various departments at Braunform and two effective trade fairs - on two continents at the same time. On the other hand we are a little bit sad to say goodbye to a longtime employee for his well-deserved retirement. We wish him all the best for his future.

With this in mind we do our business and work hard for achieving our goals...

Erich Braun

Two fairs at the same time: PlastIndia & PHARMAPACK Europe

Almost at the same time the PlastIndia fair in Gandhinagar, India, and the PHARMAPACK Europe in Paris, France, took place in February. Braunform was represented with a small booth and a team of experts.

We would like to thank all for your visit at our stall.

Braunform GmbH congratulates trainees on successful passed exam

A total of six trainees successfully finished their three-and-a-half year training period as tool mechanics (m/f). All of them will be taken over in an unlimited employment after their apprenticeship.

Investitionen in die Zukunft - Neue Maschinen 2014

Looking back, investments in our machinery always were of great importance to us. Also in 2014 our machine pool could be renewed, extended and technologically advanced due to the clever strategy of our technology team. We want to give you a short summary:

A new **measuring machine of Mitutoyo** allows our quality assurance department to measure accurately also larger dimensions. The purchase of **grinding machines Amada Master G3** supports both, our grinding department and our training shop. This allows a seamless transition from apprenticeship into a permanent position. A new **SAMAG deep-hole drilling center** provides more accurate and efficient processing on large working surface.

Goodbye to a longtime employee for his well-deserved retirement

Over 30 years Robert was an important employee in the assembly of our mold shop. As a trained tool mechanic he was a solid support with lots of work experience.

Events

23.03. - 27.03.2015: **NPE**, Orlando, Florida, USA
 16.06. - 18.06.2015: **ENGEL Symposium**, Linz & St. Valentin, Austria
 13.10. - 17.10.2015: **FAKUMA**, Friedrichshafen, Germany

Warmest spring- and easter greetings
wishes your Braunform-Team.
