inForm.Intro

Dear Readers,

This year, we proudly look back on four decades of company history. Proud of 40 years of passionate commitment to innovation. For 40 years, Braunform has been globally recognized for its innovative top performance within plastics technology. The driving forces of the Braunform success story are a deep understanding of technology and of customer's requirements, visionary thinking, highest quality awareness and the desire to never stand still. We are particularly proud of our employees, who have been largely loyal to Braunform for decades. Their enormous know-how creates the basis for the Braunform history, because "Technology is a great deal. Without people it is nothing". For this reason, we are very pleased to congratulate two long-term employees in this newsletter edition.

With the best wishes for a great summer,
Pamela Braun

Braunform GmbH — 40 Years Anniversary | Connected to People. At home in the region. In demand worldwide.

In April of this year Braunform GmbH looks back on its 40-year success story. It is thanks to the determination and the long-term vision of the company in family ownership that it is one of the leading manufacturers of injection molds and clean-room products in Europe with more than 350

employees.

Early exercise – Bahlinger kindergarten children learn from trainees at the project „TECHNOlino – discovering technology playfully“

At „TECHNOlino“ it is mainly about one: to discover the fascinating world of technology playfully. With this very special program trainees as a tool mechanic in their second year have been concerned this spring. They visit the Kindergarten „Webergässle“ in Bahlingen to tinker with nearly about 30 children in the age of 5 years to convey their sense for different tools and handwork.
