Online-News for Plastics and Pharma Technologies

inForm.Intro

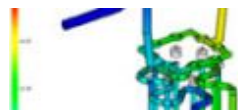

Dear Readers,

In addition to numerous information around the topic employees, you will find an interesting report on filling simulations in these newsletter edition.

We are approaching with giant steps the fair FAKUMA. This year the international trade fair for plastic processing celebrates its 25th anniversary. With more than 1.700 exhibitors from 35 nations and 40.000 expected trade visitors, the industry event in Friedrichshafen, Germany, is one of the highlights for this year. Our preparations for the event are already running at full speed. We are looking forward to welcome you at our booth 5207 in hall A5.

A colorful autumn wishes,
Pamela Braun

Higher efficiency due to simulations – the classical mold maker evolves to Full Service Supplier.

The intention of the company is the steady advance of customer orientation as well as long-term success at the location Germany. Besides highest quality requirements for a mold maker, the economic conditions are often the determining factor for investments.
